EDMONTON, ALBERTA,

February 26, 1934.

TO THE HON. R. G. REID,

Minister of Lands and Mines.

SIR,—

I herewith submit the report of The Mines Branch for the year ending December 31, 1933.

Respectfully submitted,

A. A. MILLAR,

Chief Inspector of Mines.

2226808

ANNUAL REPORT OF THE MINES BRANCH FOR THE YEAR ENDED DECEMBER 31st, 1933.

(A. A. MILLAR, *Chief Inspector.*)

The output of coal produced from mines in the Province during the year was 4,714,784 tons with a valuation of \$12,197,339.20, a decrease of 155,246 tons from the output for 1932. In addition to the above tonnage there were 2,730 tons produced by farmers for their own use, under permits, which has not been included in the total output, also we believe that there was a considerable tonnage produced by farmers, without permit or lease, of which we have no record.

There has been a considerable increase in the tonnage of coke produced in the Crowsnest Pass area, the bulk of which is being used at the Trail, British Columbia, Smelter.

Of the total output produced by the mines, 1,123,357 tons were sold for consumption in the Province of Alberta, 1,662,971 tons in other provinces of Canada, 18,449 tons for consumption in the United States, 1,500,061 tons sold to railroad companies, 14,935 tons used making briquettes, 75,275 tons used making coke, 180,159 tons used under colliery boilers, 5,994 tons used by colliery railroads, 38,004 tons put to stock, and 136,679 tons put on the waste heap.

The coal produced by farmers under permits is not included in the output, nor are the particulars as to men producing such coal included in any tables, a table being inserted giving all particulars. This being done in order that there should be no confusion of the regular statistics.

During the year there was in operation 1 shale pit producing 3,234 tons of clay and shale, from which 1,221,060 bricks were made.

There were 338 coal mines in operation during the year, of which 40 were opened, 11 reopened, and 28 abandoned. In addition to the mines abandoned there were 30 mines temporarily closed, leaving 295 mines in operation at December 31st, 1933.

There were no changes in the staff during the year. There were, however, changes made as affecting the Crowsnest and Drumheller areas. The Crowsnest has been consolidated into one area, with Mr. Moses Johnson, District Inspector of Mines, Blairmore, in charge, and the Wayne district of the Drumheller area has been transferred from Mr. A. B. Hunter to Mr. W. G. Heeley, whose headquarters are in the Old Telephone Building, Calgary.

There were 419 persons examined during the year for certificates of competency as coal-miners, of whom 360 were successful, making a total of 13,360 certificates issued to coal-miners to December 31st, 1933.

In addition to testing the mine air with Burrell and McLuckie Gas Detectors, in the various mines throughout the Province, samples of mine air have been taken at intervals during the year by the inspectors from mines in the bituminous areas and forwarded

to the Chemistry Branch of the Department of Mines, Ottawa, for analysis.

Samples of rock dust, used for rock-dusting the roadways in the bituminous mines, have been collected and forwarded to the Provincial Analyst to be tested for silica content.

Samples of coal have been collected and forwarded to the Industrial Research Department, University of Alberta, for analysis.

In addition to the regular inspections of all mines by the District inspectors, all serious and fatal accidents were investigated and all inquests were attended by them.

It is gratifying to note the decrease in fatal accidents, there having been only 6 as compared with 11 during 1932, this being the lowest number of fatal accidents since the Province was formed.

In addition to the fatal accidents in mines, there was one person killed whilst illegally taking coal from a cut-bank near Pinhorn. This accident is not included in the number from producing mines.

There were 7 prosecutions instituted for contravention of The Coal-mines Regulation Act, made up as follows: 5 workmen and 2 operators.

There were 17,611,959 k.w. hrs. of electrical purchased power used by the mines in the Province during the year.

The purchased power was distributed as follows: Big Valley, 8,600 k.w. hrs., purchased from the Union Power Co. of Drumheller, who also supplied 3,597,429 k.w. hrs. to mines in the Drumheller area, also 177,900 k.w. hrs. to mines in the Carbon area.

The mines in the following areas were supplied with purchased electrical power by the Calgary Power Co.: Camrose 5,960 k.w. hrs., Edmonton 834,000 k.w. hrs., Gleichen 950 k.w. hrs., Lethbridge 751,586 k.w. hrs., and Taber 14,700 k.w. hrs.

The mines in the Crowsnest area purchased 12,180,134 k.w. hrs. from the East Kootenay Power Co.

The City of Medicine Hat supplied 40,800 k.w. hrs. to the mines in the Redcliff area.

There were 10,084 men employed at the mines during the month of December, 1933, being 212 less than in December, 1932.

The use of steel girders to replace timber is increasing, particularly in mines in the Crowsnest area, where this type of support is being used on main entries and airways.

ANNUAL PRODUCTION OF COAL FROM MINES IN THE PROVINCE OF ALBERTA

The following table is taken from a report prepared by the Dominion Bureau of Statistics and published in "Coal Statistics for Canada" for the year 1932:

Calendar Year	Short tons	Value
1886	43,220	\$ 81,112
1887	74,152	157,577
1888	115,124	183,354
1889	97,364	179,640
1890	128,753	198,298
1891	174,131	437,243
1892	178,970	460,605
1893	230,070	586,260
1894	184,940	473,827
1895	169,885	382,526
1896	209,162	581,832
1897	242,163	630,408
1898	315,088	787,720
1899	309,600	774,000
1900	311,450	778,625
1901	340,275	850,687
1902	402,819	960,601
1903	495,893	1,117,541
1904	661,732	1,404,524
1905	931,917	1,993,915
1906	1,246,360	2,614,762
1907	1,591,579	3,836,286
1908	1,685,661	4,127,311
1909	1,994,741	4,838,109
1910	2,894,469	7,065,736
1911	1,511,036	3,979,264
1912	3,240,577	8,113,525
1913	4,014,755	10,418,941
1914	3,683,015	9,350,392
1915	3,360,818	8,283,079
1916	4,559,054	11,386,577
1917	4,736,368	14,153,685
1918	5,972,816	20,537,287
1919	4,933,660	18,205,205
1920	6,907,765	30,186,933
1921	5,909,217	27,246,514
1922	5,990,911	24,351,913
1923	6,854,397	28,018,303
1924	5,189,729	18,884,318
1925	5,869,031	20,021,484

1929	7,150,693	22,928,182
1930	5,755,528	18,063,225
1931	4,564,015	13,342,675
1932	4,870,648	13,526,309
Total.....	130,877,748	\$422,900,885

NOTE: Production quantities and values prior to 1919 refer to sales and colliery consumption. For 1919 to 1932, the mine output figures are given.

THE MINES BRANCH

ANNUAL CONSUMPTION OF COAL IN THE DOMINION OF CANADA, 1902 TO 1932

The following revised table is taken from the report issued by the Dominion Bureau of Statistics for the year 1932:

Year	Canadian*		Imported Coal Entered for Consumption				Total Short Tons	Per Capita		
	Short tons	%	From U.S.A.		From Gt. Britain					
			Short tons	%	Short tons	%				
1902	5,376,413	53.1	4,656,286		101,726		4,734,559	46.9	10,110,972	1.848
1903	6,005,735	47.3	6,520,931		184,598		6,678,450	52.7	12,684,185	2,212
1904	6,897,133	47.9	7,238,869		85,687		7,297,482	52.1	13,994,665	2,412
1905	7,032,661	49.4	7,232,738		88,500		7,215,446	50.6	14,249,107	2,341
1906	7,927,560	50.5	7,787,338		67,014		7,758,325	49.5	15,685,885	2,481

*The sum of Canadian coal-mine sales, colliery consumption, coal supplied to employees, and the coal used in making coke, etc., less the tonnage of coal exported.
†Includes small tonnages from countries other than Great Britain and the United States. Deductions have been made to take account of foreign coal re-exported from Canada and bituminous coal ex-warehoused for ships' stores.

Coke imported into Canada during the years 1931, 1932 and 1933 through ports in the Provinces, compiled from information received from the Dominion Bureau of Statistics:

Province	1931	1932	1933
Prince Edward Island	32
Nova Scotia	4,363	8,275	6,851
New Brunswick	825	150	121
Quebec	18,809	30,257	12,314
Central Ontario	621,123	*571,625	562,755
Head of Lakes	73,859	34,279	53,063
Manitoba	12,228	6,260	8,125
Saskatchewan

1933	1,129,041	8	8,742	1,137,791	5,669	57	75	3,657	3,035,613(p)

- (a) Includes 11 tons imported in February, 50 tons in July, and 6 tons in August into the Yukon Territory.
- (b) Includes 115,368 tons of bituminous coal from Great Britain, also 76 tons of bituminous coal from Newfoundland.
During 1929 there were 1,896 tons of lignite coal imported from the United States into Manitoba, 41 tons were imported from the United States into Saskatchewan, also 12,171 tons from the United States into British Columbia, making a total of 14,108 tons of lignite coal imported into Canada from the United States.
- (c) Includes imports into the Yukon Territory of 2 tons in April and 5 tons in June.
- (d) Consists of 13,199,076 tons imported from the United States, 146,199 tons imported from Great Britain and 33 tons imported from Newfoundland.
- (e) Includes imports into the Yukon Territory of 6 tons in March and 4 tons in July.
- (f) Consists of 10,224,982 tons imported from the United States, 122,298 tons imported from Great Britain.
- (g) Includes 728,458 tons of anthracite imported from Great Britain, 117,404 tons from Russia and 112 tons from Japan.
- (h) Consists of 2,955,954 tons imported from the United States, 996,127 tons imported from Great Britain, 11,480 tons imported from Germany, 291,407 tons imported from Russia, and 1,122 tons imported from French East Indies.
- (j) Consists of 2,236,423 tons imported from the United States, 876,364 tons imported from Great Britain, 60,762 tons imported from Germany, and 4,592 tons imported from French East Indies.
- (k) Consists of 8,170,248 tons imported from the United States, 362,068 tons imported from Great Britain, and 2 tons imported from Newfoundland.
- (m) Consists of 1,685,532 tons imported from the United States, 1,399,086 tons from Great Britain, 52,189 tons imported from Germany, 650 tons from Belgium, and 700 tons imported from the French East Indies.
- (n) Includes 4 tons imported in June, into the Yukon Territory.
- (o) Consists of 8,108,699 tons imported from the United States, 338,061 tons imported from Great Britain and 144 tons imported from Germany.
- (p) Consists of 1,429,829 tons imported from the United States, 1,605,776 tons imported from Great Britain, 6 tons imported from China and 2 tons imported from Alaska.
- (q) Includes imports into the Yukon Territory of 5 tons in May and 2 tons in October.

Tons of Coal entered for consumption for each month during the year 1933, through ports in the Provinces of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia, compiled from information received from the Dominion Bureau of Statistics:

BITUMINOUS COAL

Month	Central Ontario	Port Arthur	Fort Frances	Fort William	Total Ontario	Manitoba	Saskatchewan	Alberta	British Columbia	Yukon	Total Man., Sask., Alta., B.C., and Yukon	Total Canada
January	317,122	1,690	318,812	1,585	7,423	9,008	345,830

(a) Subject to revision.

*Gold valued at standard rate of \$20.671834 per ounce.

**Difference between the standard rate and the average value of gold during the year.

Particulars with reference to the coal mining industry in the Province of Alberta during the year ending December 31, 1933:

SUMMARY OF STATISTICS

Tonnage stripped by farmers under domestic permit	2,730
Number of short tons of Coal produced	4,714,784
Number of short tons of Briquettes produced	16,104
Number of short tons of Coke produced	49,279
Number of short tons of Shale produced	3,234
Number of Coal-mines in operation during the year.....	338
Number of Shale Pits in operation during the year	1
Number of mines opened during the year	40
Number of mines re-opened during the year	11
Number of mines closed during the year	30
Number of mines abandoned during the year	28
Number of mines in operation at December 31, 1933	295
185 mines or 54.70% of the total operating produced 1.43% of the output.	
72 mines or 21.33% of the total operating produced 3.24% of the output.	
12 mines or 3.55% of the total operating produced 1.55% of the output.	
35 mines or 10.36% of the total operating produced 18.01% of the output.	
20 mines or 5.92% of the total operating produced 28.00% of the output.	
8 mines or 2.37% of the total operating produced 23.22% of the output.	
4 mines or 1.18% of the total operating produced 13.79% of the output.	
2 mines or .59% of the total operating produced 10.76% of the output.	

ANNUAL REPORT, 1933

15

Average number of persons employed below ground	5,937
Average number of persons employed above ground	2,105
Number of separate accidents causing loss of life	6
Number of deaths caused by accidents above ground	3
Number of deaths caused by accidents below ground.....	3
Number of serious accidents above ground	7
Number of serious accidents below ground	53
Number of slight accidents above ground	19
Number of slight accidents below ground	90
Total purchased electrical power (kilowatt hours)	17,611,959
Number of persons prosecuted under The Coal-miners Regula- tion Act	7
Number of Provisional Certificates (overman) issued in 1933	169
Number of Certificates of Competency as Coal-miners issued in 1933	360
Number of Third Class Certificates issued in 1933	44
Number of Second Class Certificates issued in 1933	7
Number of First Class Certificates issued in 1933	3
Number of Mine Surveyors' Certificates issued in 1933.....	2
Total number of Third Class Certificates issued to December 31, 1933	1,234
Total number of Second Class Certificates issued to December 31, 1933	418
Total number of First Class Certificates issued to Decemher 31, 1933	236
Total number of Mine Surveyors' Certificates issued to Decem- ber 31, 1933	186
Total number of Interchange First Class Certificates issued to December 31, 1933	5
Total number of Certificates of Competency as Coal-miners issued to December 31, 1933	13,360

In the following tables the short ton of 2,000 lbs. is used in all cases:

Year	Output in tons for N.W.T. (Alta. & Sask.)	Output in tons Alberta
1901	346,649
1902	510,674
1903	622,939
1904	782,931
1905	811,228
1906	1,385,000
1907	1,834,745
1908	1,845,000
1909	2,174,329
1910	3,036,757
1911	1,694,564
1912	3,446,349
1913	4,306,346
1914	3,821,739
1915	3,434,891
1916	4,638,604
1917	4,863,414
1918	6,148,620
1919	5,022,412
1920	6,908,923
1921	5,937,195
1922	5,976,432
1923	6,866,923
1924	5,203,713
1925	5,883,394
1926	6,508,908
1927	6,936,780
1928	7,334,179
1929	7,147,250
1930	5,755,911
1931	4,564,290
1932	4,870,030
1933	4,714,484

PARTICULARS OF WORK DONE IN SHALE MINES IN THE
PROVINCE DURING 1933

Output of shale in tons, used for making bricks	3,234
Average number of days worked each month	25
Average number of men employed each month	8
Total number of shifts worked	2,065
Explosives used (lbs.)—40% Dynamite	575
Black Powder
Number of shots fired—fuse	276
Total number of bricks made	1,221,060
Total number of bricks lifted from stock	579,332
Total number of bricks put to stock	15,000
Bricks sold for use in:	
Alberta	1,363,416
British Columbia	451,960
Saskatchewan	92,500
Manitoba	127,500
Ontario	13,000
United States
Total.....	<u>2,048,376</u>
Total hollow tile made, in tons
Total hollow tile put to stock, in tons
Hollow tile, in tons, sold for use in:	
Alberta	595.0
Saskatchewan
Manitoba	1.8
British Columbia2
Total.....	<u>597.0</u>

PARTICULARS OF WORK DONE BY FARMERS STRIPPING COAL
UNDER DOMESTIC PERMIT

Total tonnage	2,730
Average number of days worked each month	7.31
Average number of men employed each month	59
Total number of shifts worked	2,106
Total number of permits issued	130

The above coal was stripped for domestic use only and not for sale.

CLASSIFICATION OF OUTPUT DURING THE YEARS 1901 TO 1933 INCLUSIVE

Year	Domestic	Domestic and Bituminous	Sub-Bituminous	Bituminous	Anthracite	Coal used in coke production	Briquettes	Coke
*1901	331,907	14,742
*1902	494,587	16,587
*1903	617,754	5,185
*1904	759,658	23,363
*1905	972,586
1906	602,780	546,623	235,597	71,292	46,540
1907	639,335	339,295	256,115	103,330	69,344
1908	584,334	1,001,571	112,887	112,887	49,585	73,782
1909	763,673	1,197,339	249,095	128,397	36,261	75,657
1910	878,011	1,896,961	148,104	148,104	89,785	87,312
1911	964,700	649,745	261,785	196,249	108,996	121,578
1912	1,341,389	1,926,371	80,119	61,591	48,200	35,984
1913	1,763,225	2,374,401	178,589	170,818	90,000	105,884

1933	2,434,047	554,141	1,726,396	75,275	14,935	49,279

*Includes outputs from Alberta and Saskatchewan. Previous to 1922 Sub-Bituminous was included in Bituminous Coal.

During the year 1909 a strike affecting all the larger mines in the Province lasted for a period of three months.

During the year 1911 a strike affecting all the larger mines in the Province lasted for a period of eight months.

During the year 1917 a strike affecting all the larger mines in the Province lasted for a period of three months.

During the year 1919 a strike affecting all the larger mines in the Province lasted for a period of three months.

During the year 1922 a strike affecting all the larger mines in the Province lasted for a period of five months.

During the year 1924 a strike affecting all the larger mines in the Province lasted for a period of six and a half months.

Total output of COAL, COKE and BRIQUETTES disposed of during 1933:

	Sold for Consumption in					Total Sales	Used under Colliery Boilers	Used by R.R. Colliery	Used making Briquettes	Used making Coke	Put to Stock	Put to Waste	Lifted from Stock	Waste Lifted from	Total output for year including put to stock and or waste

THE MINES BRANCH

The table showing the number of men employed in the Anthracite Coal Field includes employees at the briquetting plant. There has been no anthracite coal produced since 1923.

During the year 1909 a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1911 a strike, affecting all the larger mines in the Province, lasted for a period of eight months.

During the year 1917 a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1919 a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1922 a strike, affecting all the larger mines in the Province, lasted for a period of five months.

During the year 1924 a strike, affecting all the larger mines in the Province, lasted for a period of six and a half months.

NOTE: In calculating the total per capita production for men employed underground, the tonnage mined from stripping pits was deducted and only the tonnage produced from mines was used.

It will also be noted that the tonnages used in the above and following tables do not include tonnage extracted under permit.

ELECTRICITY

The rules for the installation and use of electricity in or about mines require a return to be made to the Department on or before January 15th of each year, giving size, type and any other particulars which may be required of electrical apparatus in use above and below ground. According to the returns received from the different mines, electricity was used in 73 different mines in 1933. A summary of these returns regarding the horse-power of electrical apparatus in use is given below:

Areas	No. of Mines using Electricity	Horse-power of Electrical Apparatus in use		Total Horse-power
		Above Ground	Below Ground	
Ardley	1	30	30
Big Valley	1	25	35	60
Camrose	1	12 ½	5	17 ½
Carbon	6	151 ½	322	473 ½
Cascade	1	705	175	880
Coalspur	4	756	310	1,066

FATAL ACCIDENTS DURING THE YEAR 1933

James Watt, a surface labourer, aged 49 years, on February 28th, at the mine operated by the Jasper Coal Company, Limited, at Drinnan, caused through his falling against the side of tippie. He was working on the tippie pushing coal down a chute, using a stick to poke the coal, when he slipped, the end of the stick poking him in the stomach causing him to fall. His head struck the side of the chute, causing concussion and partial paralysis, from which he died in the hospital on March 2nd, 1933.

Les Olson, a box car brakeman, aged 27 years, on March 1st, at the mine operated by the Cadomin Coal Company, Limited, at Cadomin, caused through his falling between railroad cars. He, along with another man, was lowering railroad cars from the weigh scale. He was on the third car, and in applying the brake slipped and fell between the second and the third cars, the wheels of the latter passing over his legs, badly crushing same and necessitating amputation. He died about six hours after the operation from shock.

Joseph Sabotin, track boss, aged 46 years, on April 1st, at the mine operated by the Luscar Collieries, Limited, at Luscar, caused through his being crushed by a trip of cars. He, along with the tippie boss, was loading and hauling cars of gravel to be sent into the mine using a tugger hoist for hauling. He was riding on the first car for the purpose of uncoupling the rope, and apparently in a moment of forgetfulness he stepped off in a narrow place and was jammed between the cars and the side of the snowshed. Crushed pelvis and internal injuries, from the effects of which he died five hours later.

George Cleet, a driver, aged 38 years, on August 18th, in the mine operated by the Western Gem Coal Company, Limited, Drumheller, caused through being crushed by cars. He was acting as driver boss, and had stepped off a trip of loaded cars being hauled from the inside workings to the shaft bottom, when the haulage chain broke. He stepped out of a manhole to warn the drivers below and was caught by the cars and crushed. Fractured pelvis and internal injuries, from the effects of which he died five hours later.

Peter Majewski, a miner, aged 36 years, on November 21st, in the mine operated by The Foothills Collieries, Limited, at Foothills, caused by a fall of coal. He was working at the face of No. 18 Pillar nailing up a support for coal chute when a large piece of coal fell from the face, crushing him against a timber. Body crushed, causing instant death.

Joe Zaleckie (or Wojceik Gancarz), a miner, aged 39 years, on November 21st, in the mine operated by John T. Oliphant, near Medicine Hat, caused by a fall of rock. He was working at the face of No. 9 Room off the main entry when a fall of rock dropped onto his shoulders and legs. Head and shoulders crushed, cuts on face, and left leg fractured. He died from shock five hours later, caused by the injuries.

In addition to the above fatal accidents, there occurred an accident which caused the death of Ralph Lightizer, farmer, aged 44 years, on November 9th, while illegally mining coal in a cut-bank in Police Coulee on Section 31, Township 1, Range 8, West of the 4th Meridian, near Pinhorn. He was crushed by the bank which he was undermining.

THE MINES BRANCH

In addition to the above, Mr. James A. Richards, 11009 89th Ave., Edmonton, is acting in the capacity of General District Inspector of Mines, Telephone No. 32662.

BOARD OF EXAMINERS

The constitution of the Board during the year 1933 was as follows:

As representing:

- (a) The Mine Inspectorate:
Andrew A. Millar, Chief Inspector of Mines.
- (b) Managers:
Norman Fraser, Robert Livingstone.
- (c) Working Miners:
William Lammie, Evan Morgan.
Secretary:
James A. Richards.

Examinations were held during the year as follows: For third class at the following centres: Drumheller, May 9, 10, 11, 12, 13, 15 and 16; Edmonton, May 9, 10, 11 and 12; Lethbridge, May 9, 10, 11, 12, 13 and 15; Blairmore, May 9 and 10; Cadomin, May 9; Canmore, May 9 and 10.

For first and second class on June 7, 8 and 9, at Blairmore, Cadomin, Drumheller, Edmonton and Lethbridge.

For mine surveyor on June 9 at Edmonton, Drumheller and Blairmore.

Thirteen candidates presented themselves for examination for first class certificates, of whom one was successful. Thirty-one candidates presented themselves for examination for second class certificates, of whom nine were successful. Eighty-three candidates presented themselves for examination for third class certificates, of whom forty-four were successful. Three candidates presented themselves for examination for mine surveyor's certificates, of whom two were successful.

List of Names of Holders of First Class Certificates Issued by the Government of the Province of Alberta to December 31, 1933:

Name	Address	Cert. No.	Date of Issue
Addie, W.	Estevan, Sask.	19	25- 8-03
